PHILADELPHIA, PA.

Dreer's Quarterly Wholesale Price List.

January March, 1898.

SEED DEPARTMENT.—This is in charge of trained experts, and whether your wants may be in Vegetable, Agricultural or Flower seeds, you may be sure to get only the choicest.

PLANT DEPARTMENT.—Our stock of decorative plants, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown, and will compare favorably with stock distributed by us in previous seasons.

Whenever possible, we solicit a personal inspection of our stock. Our nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York, and something of interest will always be seen.

The new ranges of glass erected in 1895 and 1896, covering 53,000 square feet each, (two of the houses being nearly one acre each under one roof) are certain to interest anyone having anything to do with a greenhouse. This, we believe, illustrates in a practical way, that we believe in home-grown plants.

Our Palm cultures are now undoubtedly the largest and most complete in the country.

A time card of trains, with directions how to reach the nurseries, will be mailed to anyone applying.

PACKING.—We make no charge for packing and by our careful and thorough system, we **Guarantee Safe Delivery** on Plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary.

Plants and other perishable goods, when sent in any other way, are solely at Purchaser's Risk.

LOW EXPRESS RATES ON PLANTS, SEEDS AND BULBS.—We are shipping by express lines to all parts of the country, plants, etc., packed in closed boxes at a reduction of 20 per cent. from regular rates of merchandise. Boxes weighing less than 100 pounds are charged at pound rates, minimum charge not less than 35 cents. For example: where the general rate is \$5.00 per 100 pounds, a box weighing 20 pounds will be carried for 80 cents. Prepaid 4 pound packages of seeds, plants, and bulbs are carried to California and all distant points for 30 cents each.

PRICES.—The prices quoted in this list are net, and subject to no discounts. All orders from the trade will be priced according to this list, articles offered in our Garden Calendar (Retail Catalogue) and not offered in this list will be supplied at retail prices less the following discounts, viz.: Vegetable Seeds in packets, Flower Seeds, Bulbs and Plants, 33½%; Small Fruits, 25%; Small Tools and Insecticides, 10%; Lawn Mowers, 5%.

TERMS OF BUSINESS.— Unknown correspondents desiring to open an account, will please furnish satisfactory reference, otherwise cash must accompany order.

 Remittances should be made by Post Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

 Perishable goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

CHANGE OF TERMS.—In order to equalize and to give the same time of credit on all purchases, we have decided to abolish our old system of credits in which all accounts, regardless of date of purchase, were due in January and July, and have decided to adopt a new system, as follows:

All bills will be due and payable Ninety (90) days after date of invoice.  No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices.  In filling out your order, always give **Shipping Directions**, and write **Name and Address Distinctly**.

NON-WARRANTY.—We wish it to be distinctly understood, that although we continue to take all possible pains to supply only New, Genuine and unadulterated Seeds and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

Novelties and Specialties in

VEGETABLE SEEDS

For 1898.

Novelties produced by specialists in this country and abroad are carefully tested in our trial grounds during the summer, and the descriptions given are mainly as received by the introducers.

NEW STRINGLESS GREEN POD BEAN.

New Stringless Green Pod Bush Bean.

This variety deserves the good name it bears. It is positively stringless and remains tender and crisp longer after maturity than any other variety. Our repeated trials, since its introduction, enables us to speak in highest terms of its qualities. We have secured stock from our grower for the coming season of such excellent quality that we are pleased to place it among the list of novelties for 1898. The pods are of pale green, long and straight, perfectly round and meaty, maturing with the earliest of the green-pod varieties. Not only is it a valuable market gardener's sort, but certainly an acquisition for the amateur.

Price, qt. 25 cts.; peck \$1.50; Bu. \$5.00.

CELERY.

New Golden Rose Self-Blanching.

In character this variety is identical with the Golden Self-Blanching, except the color, which is a beautiful rosy tinge, shading to very pale pink at top of stalk; the ribs are prominent and the stem thick, solid and brittle; being of hardy nature, it possesses good keeping qualities. While it is very ornamental, very early, and positively self-blanching, it bleaches to a beautiful golden-yellow at the heart after storing for winter, when it is at its best selling point. It is also the best-flavored celery beyond any question. The Rose and Red varieties of Celery are not used extensively; this is because they are not better known. We claim for the Golden Rose a brilliant future. The private and market gardeners around Philadelphia exhibited magnificent specimens at the fall exhibitions. Pkt. 10 cts.; oz. 35 cts.; $\frac{1}{4}$ lb. \$1.25; lb. \$4.00.

CELERY, "SCHUMACHER."

CELERY, NEW GOLDEN ROSE SELF-BLANCHING.

Celery, "Schumacher."

This variety is in general favor around New York City, where it is grown in large quantities. It produces very large $\frac{1}{2}$ dwarf stalks, ribs very broad and brittle, with heart of a rich golden-yellow. Its great point is its remarkable keeping qualities, remaining solid in March and April, which is the most profitable time to sell. We offer only true stock. Price, per oz. 30 cts.; $\frac{1}{4}$ lb. \$1.00; lb. \$3.00.

New Lettuce,

"WONDERFUL."

This sterling novelty was offered by us for the first time in our last year's catalogue; we can say without fear of contradiction that it is the best Lettuce ever introduced. While not as early as some, it will stand more heat than any other variety, maturing throughout the entire summer when Lettuce is bringing high prices. We received from many of the best-known gardeners in the country testimonials of this variety. John Paget, gardener at Pennsylvania Hospital, Harrisburg, Pa., sent us specimens from open ground on June 19, 1897, each weighing 2½ pounds. The above specimens were all with hard, white heads, crisp, of fine flavor, very tender. During the summer many of our customers reported on their phenomenal success with the Wonderful, having produced specimens weighing 6 pounds. James Campbell, gardener to J. D. Winsor, Esq., Haverford, Pa., exhibited specimens at the Pennsylvania Horticultural Society during the summer which weighed 4 pounds each; they were images of winter Cabbage with outer leaves removed. We are pleased to place this variety among the novelties of this season, feeling assured that it will meet with louder praise than before. Oz. 35 cts.; ¼ lb. \$1.00; lb. \$3.50.

New Lettuce, "Wonderful."

The New Family of Extra Early Wrinkled Peas.

See also page 3.

Dreer's Extra Early Pea,

"ELECTRIC."

This new and distinct variety is a close selection of the Alaska type, being not only earlier but with much larger pods, producing a heavy crop of beautiful green Peas shouldered in the pod. The vine grows 3 feet high, and when ready for picking they are covered with evenly filled pods in profusion. The accompanying illustration, taken from a photograph, shows the pod and grain just at maturity. This variety will become a favorite among gardeners. It remains tender, and at full maturity becomes a very dark green color after cooking. Qt. 30 cts.; ½ peck, \$1.00; peck, \$1.75; bushel, \$6.00.

DREER'S EXTRA EARLY PEAS,
"ELECTRIC."

Early Wrinkled Pea,

"DUKE OF YORK."

A variety with immense pods, and of the best of the extra early wrinkled sorts. Maturing only a few days after the Extra Early Peas. It has been closely selected from the Duke of Albany, and much dwarfer; grows only 2½ feet high; is of a very dark color in pod and foliage; the pods are long and well filled with large, dark green peas; extremely tender and of excellent flavor; is a superior market gardener's variety. Qt. 30 cts.; peck, \$2.00.

"DUKE OF YORK."

New Pea "Ameer."

A distinct early round-grain variety, growing from 3 to 4 feet high, of a rich deep green color, following close upon the extra early sorts; bears its pods in pairs, of large size, curved and very broad, filled with large grains of fine quality. The seed is blue, round, and can be sown very early and not be injured by cold, wet weather of early spring. This is one of the sorts of which repeated plantings can be made through the spring, as they are not affected by the early summer heat. It is, therefore, highly valuable for market gardeners, as the deep colored pods of such large size will always sell at advanced prices over other sorts. Pt. 25 cts., qt. 40 cts.

New Pea "Gradus."

An *early wrinkled* variety of the highest type of perfection; grows 2½ feet in height, is a vigorous grower; of light green color; pods and grain of very large size. The result of our experiments during the season of 1897 was an utter surprise to us, in finding a green wrinkled variety with a pod such as the "Gradus" produces to mature only three days after Dreer's Eureka Extra Early, hence we claim it to be the *earliest* wrinkled Pea known. The large pods produce from 7 to 9 large shouldered Peas each, which when cooked retain their beautiful soft green, and are rich and mellow. Don't fail to give the Gradus a trial.

Pt. 35 cts.; qt. 60 cts.

NEW PEA "AMEER"

NEW PEA "GRADUS."

Radish "Dreer's Earliest White Globe Forcing."

The earliest white Radish in existence, bearing a beautiful oval-shaped Radish, with transparent ivory-white skin, very small root, also small top; flesh white, tender and crisp. After two years' thorough trial, we are convinced of the superior quality of this sort, being one of the most attractive varieties of an early forcing type. It is particularly adapted to forcing in greenhouse or hot bed, thus giving a supply through the winter and early spring months; is the quickest maturing sort for open ground during the spring, summer and fall. The above illustration is from a bunch from open ground 18 days after sowing. Pkt. 10 cts.; oz. 20 cts.; ¼ lb. 50 cts.; lb. \$1.50.

Radish "White Delicacy."

An excellent summer variety; an improvement on the White Strasburg, being earlier, more evenly shaped, and smaller top; grows

into full size and perfect shape during the hottest weather; for outdoor early fall sowing the Delicacy is sure to make a crop of uniform white Radishes, which are in quality first-class—a profitable market gardener's sort. Oz. 10 cts.; ¼ lb. 30 cts.; lb. 90 cts.

Radish "Improved Golden Dresden."

A perfectly round Radish, with golden-brown skin and very small top, ready for the table in four weeks from sowing in the open ground; flesh white and crisp, and of fine flavor. Can be sown in close rows; is a sure cropper. The improvement of this sort over the Golden Dresden is that it is earlier, smaller top, and more uniform in shape. Oz. 15 cts.; ¼ lb. 40 cts.; lb. \$1.25.

RADISH, "WHITE DELICACY."

General List of Vegetable Seeds.

DREER'S RELIABLE FLOWER SEEDS.

We give close attention to the Flower Seed department of our business, which is probably the largest in quantity and variety in this country. Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call special attention to our choice strains of Cineraria, Carnation, Calceolaria, Cyclamen, Gloxinia, Pansy, Primula, etc., which are acknowledged by leading growers to be superior in all respects. Our trade packets contain a liberal supply; where smaller quantities are wanted, buyers can select from retail catalogue at a discount of one-third.

The above two varieties are our own saving and are far superior to any other strain offered. Great care should be exercised in growing Double Petunias from seed to save the smaller and weaker seedlings, they invariably being the finest doubles.

Aquatic Department.

We have the largest and best equipped Aquatic Department in the country, and are prepared to supply strong plants of the new and rare as well as the standard sorts of Water Lilies, etc. Florists would do well to plant a few of the leading kinds, they being one of the best "ads." we know of; people go miles to see the Water Lilies, that would not be attracted by any other class of plants.

Full descriptions and cultural directions will be found on pages 96 to 103 of our Retail Catalogue.

Plant Department.

Our stock of decorative plants, such as Palms, Ferns, Pandanus, Ficus, etc., etc., is now very complete in a full line of sizes, from small seedlings for growing on, to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well-grown, and will compare favorably with stock distributed by us in previous seasons.

Our Measurements of Plants, where given, as in the case of Palms, etc., etc., means the height of the plant from the top of the pot to the top of the plant in its natural position. We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in that way.

An Invitation. Whenever possible, we solicit a personal inspection of our stock. Our Nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York, and something of interest will always be seen. A time card, with directions how to reach the Nurseries, will be mailed on application.

AGERATUM PRINCESS PAULINE.

New Variegated Abutilon Savitzii.

A new and unique variety, somewhat in the style of Souvenir de Bonn, but much improved, the variegation on same being much more defined, with a much broader white border and of more compact habit.

25 cts. each ; \$2.00 per dozen.

Acacia Armata.

A pretty spring flowering variety which produces its flowers in globular heads from the axils of the foliage in such a manner as to completely envelope the plant in a pleasing light yellow ; an excellent plant for Easter forcing, succeeding under the same culture as the Azaleas. We offer a fine lot of well-budded specimen plants in 7 and 8 inch pots, 26 to 30 inches high, \$2.00 and \$2.50 each.

Ageratum Princess Pauline.

A most distinct and novel variety of dwarf compact habit, rarely exceeding five inches in height, its peculiarity being that both colors, blue and white, are combined in the same flower ; the body of the flower being white, while the stamens are of a light sky blue, giving the flower a pretty, variegated appearance ; one of the most distinct new bedding plants that has come under our observation this season. Ready April 1st. 20 cents each ; \$2.00 per dozen.

Anemone Japonica (Honorine Jobert)

Japonica Alba. Pure white.

" Rosea. Rose color.

" Whirlwind. New semi-double white.

ASPARAGUS SPRENGERI.

Asparagus Sprengeri.

When introduced, at a high price, a little over a year ago, this variety was received with some hesitation as to its desirability, but after only a limited trial it has come forward with such prominence that the supply will be inadequate to the demand for some time to come. Not only is it useful for cutting in sprays for fine cut-flower work, more particularly in connection with large roses, etc., but grown in suspended pots it makes one of the prettiest decorative house plants we know of. Used in decorations, as for example, in the decorations of mantels, nothing can equal it.

We offer but a very limited stock in 3 inch pots, \$1.25 per dozen ; \$10.00 per 100.

Asparagus Plumosus Nanus.

A grand variety for cutting, either in strings or in smaller pieces. We offer a fine lot of thrifty young plants.

2 inch pots, \$1.00 per dozen ; \$8.00 per 100.

Hardy Asters. Michaelmas Daisies.

We offer a fine collection of these pretty summer flowering hardy Asters ; improvements on our native varieties.

Amethystinus. Lovely amethyst-blue flowers.

Amellus Elegans. Rich indigo-blue with yellow centre.

Datschi. A very late-flowering sort ; white blossoms.

Lævis. A pretty light-blue variety, flowering early.

Lady Trevelyan. A fine, large, pure white.

Novæ Angelix Melpomene. Bluish-purple with yellow centre.

Novæ Angelix Rosea. Bright rose-colored flowers.

Robert Parker. Lavender-blue with yellow centre.

\$1.00 per doz ; \$8.00 per 100.

TUBEROUS-ROOTED BEGONIAS.

Tuberous-Rooted Begonias.

The strain of Tuberous-Rooted Begonias we offer is too well known to require lengthy description, suffice it to say that we have used the same care with this as in the previous seasons, to select only such varieties as are adapted to our climate and certain to give satisfactory results. The bulbs are of good size, well ripened and first-class in every respect.

Note the reduction in prices, which are as low as is consistent with good quality; the retail florist who is growing a few hundred bulbs for his spring trade, to sell over the counter in bloom, will find many of the cheap indifferent strains now offered dear at any price. We offer but one quality, and that is the best.

¶ **Single Varieties in Separate Colors.** Crimson, scarlet, white, rose, yellow and orange. 50 cts. per doz; \$3.00 per 100; \$25.00 per 1000.

Single Varieties in Choice Mixture. 40 cts. per doz; \$2.50 per 100; \$20.00 per 1000.

Double Varieties in Separate Colors. Scarlet, rose, white and yellow. \$1.25 per doz; \$10.00 per 100; \$90.00 per 1000.

Double Varieties in Choice Mixture. \$1.00 per doz; \$8.00 per 100; \$70.00 per 1000.

New Frilled Tuberous-rooted Begonia.

A most unique form, with very large single flowers which are entirely distinct from anything heretofore offered, the petals being wavy and beautifully frilled on the edges similar to the newer forms of Petunias. The illustration gives a very good idea of its general appearance. Of German origin, and created a sensation wherever exhibited the past season; a decided acquisition. Strong bulbs, 30 cts. each, \$3.00 per doz.

New Tuberous-rooted Begonia, DUKE ZEPPELIN.

A most useful and attractive variety that should soon become a favorite for bedding, possessing the great advantage over other tuberous-rooted Begonias of delighting in full sunshine. It is of dwarf habit, growing from 6 to 8 inches high, throwing up well above the foliage numberless stems bearing full, double dazzling-scarlet flowers, giving the whole plant a brightness, grace and elegance difficult to describe. A bed containing about 500 plants of this variety, for gorgeous effect, eclipsed anything we ever saw. Strong bulbs, 30 cts. each, \$3.00 per doz.

Bougainvillea Glabra Sanderiana.

This handsome free flowering variety is becoming more popular each season, and is meeting with much favor as an Easter Plant. Good young plants for growing on, 25 cts. each, \$2.50 per doz.

NEW FRILLED BEGONIA.

CARNATIONS.

Rooted Cuttings of Novelties and Varieties of Recent Introduction.

Bon Ton. Bright warm scarlet, large, deeply fringed fragrant flowers on a stem as stiff as a reed; perfect calyx. Habit of the plant exceptionally strong; resembling Portia, but much heavier and more vigorous. \$2.00 per doz.; \$10.00 per 100. \$75.00 per 1000. (Ready Feb. 1.)

Empress. Magnificent bright rich crimson, base of petals fiery scarlet, large perfectly double flowers deeply fringed and delightfully fragrant. Stems 2½ to 3 feet and self-supporting. A hardy, vigorous grower and very prolific. The largest and richest of its color yet introduced. \$2.00 per doz.; \$10.00 per 100; \$75.00 per 1000. (Ready March 1st.)

Flora Hill. An enormous white, easy to grow, very early and free in bloom and not subject to disease. We sent out a great quantity of this variety last year and have the first complaint to hear regarding it in any way; it has given universal satisfaction. 75 cts. per doz.; \$5.00 per 100; \$40 per 1000.

Gold Nugget. Clear deep yellow, slightly marked with red. The first real rival of Buttercup in color—in point of productiveness and constant blooming it is far ahead of that fine variety. \$2.00 per doz.; \$10.00 per 100; \$75.00 per 1000. (Ready Feb. 1st.)

Harrisons White. A sport from William Scott, flowers same size; habit of plant the same as Scott and equally free. 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000.

Jack Frost is perhaps the largest white carnation in cultivation, having won this distinction in open competition at Philadelphia in April, 1896. It is of fine form, beautifully fringed and exceptionally fragrant. We have grown flowers 4 inches in diameter, and 3½ inches is a common size. \$2.00 per doz.; \$10.00 per 100; \$80.00 per 1000.

John Young. Very double snow white flower, deeply fringed; splendid calyx; strong clove fragrance. Stem strong, stiff and wiry; habit erect, vigorous, exceptionally healthy and a free and steady bloomer. \$2.00 per doz.; \$10.00 per 100; \$75.00 per 1000. (Ready Feb. 1st.)

Mrs. Geo. N. Bradt. Clear white, heavily edged and striped with bright scarlet, flowers large and full; habit strong and vigorous. \$1.00 per doz.; \$6.00 per 100; \$50.00 per 1000.

Mrs. James Dean. Clear silvery pink, delicate and chaste, yet brilliant and effective under all lights. Flowers large and very full and come on long, wiry stems, and a free bloomer. \$2.00 per doz.; \$10.00 per 100; \$75.00 per 1000. (Ready Feb. 1st.)

New York. Bright cerise pink, resembling Bridesmaid. Habit erect, strong, vigorous, free, early and continuous bloomer. \$2.00 per doz.; \$10.00 per 100; \$75.00 per 1000. (Ready Feb. 1st.)

White Cloud. White, habit same as Daybreak but taller, stronger, more vigorous and an earlier and much freer bloomer. Flowers large, excellent form and finish. \$2.00 per doz.; \$10.00 per 100; \$75.00 per 1000. (Ready Feb. 1st.)

CEANOTHUS GLOIRE DE PLANTIERES.

Ceanothus Gloire de Plantieres.

Very few of the Ceanothus have found their way into general cultivation owing principally to the fact that most of the varieties heretofore introduced have been very tender. In this new variety is combined almost entire hardiness, a slight protection around the roots, which may be omitted if planted in a sheltered position, being sufficient to carry them over successfully, while the flowers are of large size and of a most desirable shade of lavender blue. The shrub-like plant grows about three feet high and begins to bear its graceful and airy heads of flowers early in June, continuing through the greater part of the summer. (See cut.) 25 cts. each; \$2.50 per doz.

SELECT SET OF SIX NEW CANNAS.

We take much pleasure in presenting this set of 6 Cannas. We consider them the "cream" of this year's introductions, and feel sure that each and everyone will give the utmost satisfaction.

Goliath. The finest Crimson Canna extant, and we have no hesitation in predicting a great future for it. It was introduced by the fortunate originator of Queen Charlotte and other prominent varieties. It is of uniform dwarf habit, never exceeding 3 feet in height, with broad, massive dark green leaves; an early and continuous bloomer, throwing its graceful trusses of large bold flowers just the proper distance above the foliage; color rich dazzling crimson, similar to that old favorite, Alphonse Bouvier. 75 cts. each.

J. D. Eisele. A magnificent vermilion scarlet overlaid with orange, raised by one of Europe's foremost Canna specialists, and named in honor of our Nursery Manager. It is a strong free grower, attaining a height of 3½ feet, and is without question the finest scarlet yet offered. 75 cts. each.

Menelek. This is the best of M. Crozy's introductions for this season, and one of the most floriferous varieties known to us. It is of dwarf compact habit, about 3½ feet high, very uniform, with heavy rich green foliage. Its flowers are

of good size, with broad petals; are of a rich nasturtium red, a color which shows well in contrast with other shades. 75 cts. each.

Furst von Hohenlohe. An ideal yellow bedding Canna. Its flowers are of fair size, the upper petals of purest yellow, the lower one slightly marked with crimson. Its strong points are its great floriferousness, neat compact habit, large spikes of flowers, and the fact that at the distance of only a few feet it appears as a pure yellow. We have no hesitation in placing it at the head of the list of yellows. 50 cts. each.

Sam Trelease. This handsome variety originated with Mr. James Gurney, Superintendent of Tower Grove Park, and Head Gardener of the Missouri Botanical Gardens, and was admired by everyone who saw it in our grounds last summer; in fact, many prominent Canna growers considered it the best and most distinct new variety in our fields. The greatest merit of this variety is that the flowers open flat, which, with its very broad petals, which are of good substance, makes a large, nearly perfect circular flower, different from all other sorts. In color it is the nearest approach to a pure scarlet yet introduced. Very rich and glowing; the edges and centre are marked with yellow about the same as in Mme. Crozy. It grows about 3 feet high, with large, freely branching spikes of flowers, which are thrown above the foliage of just sufficient height to show them to best advantage. In freedom of flowering we know of no variety that compares with it, and we feel certain that it will soon become one of the popular standard sorts. 35 cts. each.

Sunray. An entirely distinct striped variety. The flowers are of large size, open out well, and are produced very freely. The ground color is a rich bright yellow, with stripes and dashes of bright scarlet running through almost to the edge of the petals, producing a unique and bizarre effect. (See cut on page 27.) 35 cts. each.

Special Offer: We will furnish one each of the set of 6 select Cannas for \$3.00.

NEW AMERICAN CANNA, PRESIDENT CLEVELAND.

A variety that originated in Washington, D. C., where it is used very extensively in the grounds of the various departments. It is of strong, robust habit, growing about 3 feet high, with rich green foliage. The flowers, which are bright orange scarlet, are borne in enormously large trusses, standing well above the foliage, making it very conspicuous; an excellent sort for massing. 60 cts. each; \$6.00 per doz.; \$40.00 per 100.

CANNA GOLIATH.

New Italian Orchid-Flowered CANNAS.

CANNA SUNRAY.

The following are the best of the Italian introductions of this season; all are the large orchid-flowered type similar to the famous Austria and Italia introduced last year. We call special attention to those having dark foliage, they stand alone and above all other bronze-leaved sorts heretofore introduced, and are worthy of a place in every collection for their foliage effect alone.

America. Of handsome, majestic growth, attaining a height of 6 feet; the magnificent bronzy foliage marked with green, having a peculiar lustre, appearing as if varnished; flowers rich orange-salmon, feathered and veined with scarlet. 35 cts. each.

Allemania. This is perhaps the best of the Italian-type flowers, being exceptionally large, frequently measuring over 6 inches across; the upper petals salmon, with broad border and markings of golden-yellow, while the lower petal is darker salmon, marked with yellow in the centre; a fine flower and possesses more substance than others of this type; dark green foliage; grows 6 feet high. (See cut on page 26.) 35 cts. each.

Africa. Similar in foliage and habit to America; flowers large, of rich orange-salmon, deepening to scarlet in the throat; height 6 feet. 75 cts. each.

Asia. A bright yellow variety, similar to Austria, but with more decided and deeper red spots in the throat; foliage deep green. 50 cts. each.

Aphrodite. Deep green foliage and large flowers, upper petals salmon edged and feathered light yellow, lower petals light salmon with paler shadings. 50 cts. each.

H. Wendland. An improved Italia, with larger flowers of better substance and richer color, the orange-scarlet on yellow ground being more intense; fine. 75 cts. each.

La France. A counterpart of America, but with still darker foliage and more compact habit, growing about 5 feet high; flowers orange-scarlet. 75 cts. each.

Pandora. Another bronze-foliaged variety in the style of America, with salmon flowers, each petal streaked and marbled with scarlet; quite distinct; grows 6 feet high. 50 cts. each.

Suevia. A very large, pure yellow flower, brighter than Austria or Burbank, with brownish-red dashes on the throat; foliage green; 6 feet. 50 cts. each.

Special Offer.—We will furnish one each of the 9 Italian varieties for \$4.50.

CROZY'S BEST SIX CANNAS FOR 1898.

From 15 varieties sent us by M. Crozy last year we have selected the 6 varieties enumerated below as the most distinct and handsome. All are desirable additions to our list, and we fully endorse each one.

Depute Ravarin. A pretty and pleasing sort, with good-sized, deep, garnet flowers, a shade lighter than the favorite Alp. Bouvier, which it much resembles, except that the truss of flowers stand erect and is much larger; height 5 to 6 feet. 35 cents each.

Joseph Combet. This is a rich velvety cardinal, very brilliant; flowers of good size, habit dwarf and compact, about 3½ ft. 35 cts. each.

Mme. Favrichon. A most prolific flowering sort, growing about 4 feet high; flowers satiny-carmine, with a peculiar orange sheen; distinct and desirable. 35 cents each.

Mme. Leon Leclerc. This is one of the oldest colors introduced this season, the ground color being a bright orange-scarlet, with a heavy tip and narrow margin of yellow on each petal. The plant grows about 5 feet high and produces its good-sized spreading flowers very freely in branching heads. Entirely distinct from anything yet sent out, and a valuable addition to any collection. 35 cents each.

R. Pearson. Golden-yellow ground, dotted with innumerable light red spots, the spots being much more numerous than in any other variety; flowers of about the same size as Flo. Vaughan, produced very freely; habit compact and uniform; growing about 3½ feet high. 35 cents each.

Secrétaire Chabanne. A most pleasing variety, with large flowers of very rich salmon, a shade entirely distinct from any other sort; plant of uniform growth; about 4 feet high, and one of the freest-flowering varieties in the collection. 35 cents each.

Special Offer.—We will furnish one each of Crozy's Best Six Cannas for 1898 for \$2.00.

GRAND SPECIAL OFFER.—We will furnish one each of the 22 New Cannas offered on page 26 and above, making a collection embracing the best novelties of the year, for \$9.00.

Italian Orchid-Flowered Cannas.

CANNA ITALIA.

This distinct race of Cannas was offered last year for the first time, and has given general satisfaction with the exception of being thinner and having less substance than the French varieties; do not last so long in hot, dry weather; but this objection is not serious, as they are so extremely free-flowering that they are continually in bloom. The individual flowers are very large, rarely measuring less than six inches across, while the coloring is superb, and the name Orchid-flowered is very appropriate.

Italia and Austria.

Having a large stock of the above two fine varieties, we are in a position to offer strong dormant eyes at \$5.00 per 100.

SIX SUPERB SORTS

The "Cream" of M. Crozy's 1897 Introductions.

We take great pleasure in offering these six superb sorts, which are without exception the very best in their respective colors and type up to date, and we feel certain that purchasers of this set will be fully satisfied with the selection. We have given these varieties two seasons' trial under field culture, where they received the most ordinary treatment, and under all conditions of weather they held their own with the host of so-called novelties.

Baronne de Poilly. A most prolific flowerer, with large rounded petals which open out very full, making a perfectly round flower of excellent form; of a rich orange-salmon color; foliage light green; habit compact; 3½ feet.

Hortense Barbereau. Remarkably fine, large, cherry-red trusses of immense size; a decided improvement on all others of this type; excellent for massing; habit compact and strong; foliage rich dark green; 3½ feet.

Mlle. Berat. A decided acquisition on account of its color, which is the nearest approach to a pink in a first-class bedder. Many of the sorts heretofore offered as pink, while very pretty in the individual flower, have a "washed-out" appearance both on the single plant or when planted in masses. In this variety, however, the larger the mass the finer the effect, and when planted with yellows and high-colored reds it is simply superb; height 4 feet.

Mine D'Or. This is practically a yellow Mme. Crozy, which it resembles in size and shape of flower. It is of bright canary-yellow, the lower petals very lightly marked with red. Like all other yellows it has the fault of bleaching under certain conditions of the weather, but it is the best of this type of flower; height 3 ft. 50 cts. each; \$5.00 per doz.

Leon Pepin Lehalleur. A grand variety of brilliant carmine-red that at once attracts attention. It is effective in every position; flowers extra large and round, with strong, heavy petals of fine substance; a strong grower of good habit; 4 feet.

Vice-President Luizet. An excellent variety and especially effective for massing. It is of a rich cherry-red, with carmine reflex. The flowers are produced in very large, compact spikes; foliage green; 3 feet.

Price of any the above **Six Superb Sorts** 30 cts. each, \$3.00 per doz., \$20.00 per 100 (except where noted), or one each of the six varieties for \$1.50.

The best DARK-LEAVED CANNA, Bassett's Red.

This is without doubt the finest of all the dark foliaged varieties, and where foliage effect is wanted or in connection with the French varieties it is a perfect gem; it has small flowers like all the *Indica* type to which it belongs, but its foliage is superb, being of the most intense bronzy red; in growth it is strong and stately, growing very uniformly to a height of five feet. 75 cts. per doz; \$5.00 per 100.

NEW CHRYSANTHEMUMS.

Frank Hardy.

This superb variety is destined to become popular, and in large demand both for exhibition and for the cut-flower trade.

It grows about four feet high, has a most robust constitution, a stem of great strength and rigidity mantled with luxuriant leafage right up to the flower. The flower is pure white, full, deep, and solid; the petals incurving in graceful folds, the form altogether unique.

It averaged 92 points from the awards of four C. S. A. committees, at New York, Boston, Philadelphia, and Chicago; has received many certificates from other societies, and won first prize in competition with all the leading varieties on the market, wherever shown during the past season.

Ready March 1st. 50 cts. each; \$3.00 per doz.; \$20.00 per 100.

Pennsylvania.

A sport from Philadelphia possessing all the good points of that favorite variety, excepting that the color is a rich bright yellow and certain to become a general favorite.

Ready March 1st. 50 cts. each; \$5.00 per doz.; \$35.00 per 100.

PENNSYLVANIA.

E. G. HILL & CO.'S NEW CHRYSANTHEMUMS.

Autumn Glory. (Raised by H. Yoshiike.) The finest new variety of the year, and a grand addition to the small family of fine pink varieties. Height, 4½ to 5 feet on the bench. Blooms Nov. 5th to 15th. A grand commercial pink and unsurpassed for exhibition; there is nothing at all like it in color, which is a deep reddish salmon on opening and gradually changes to a soft shrimp pink when finished; of the general shape of Vivian Morel, of largest size and takes on great depth. A very easy variety to grow, without any troublesome peculiarities. A wiry stem and beautiful foliage add to its value. A fine traveler, having scored well with 4 of the committees and at the principal shows.

50 cts. each; \$5.00 per doz.; \$35.00 per 100. Ready March 1st.

Black Hawk. A mid-season reflexed, of dark crimson scarlet, showing no trace of the dull reverse. This is decidedly the most beautiful variety yet obtained among scarlet crimsons.

H. W. Longfellow. Very large, globular bloom, white, sometimes flushed with pearl color, slender stiff stems, fine foliage up to the flower which is very full with petals beautifully formed, early midseason.

Polar Queen. Heavily and beautifully foliaged from soil to bloom; color bright yellow, of two shades; enormous bloom; will rank in size with finest exhibition sorts and is elegant for commercial purposes.

GROVE P. RAWSON'S NEW CHRYSANTHEMUMS.

Wm. H. Chadwick. One of the grandest novelties of the year, a star production, certificated at Chicago, Boston, New York and Philadelphia. An immense striking bloom, waxy white, occasionally rosy tinted. Habit, growth, stem and foliage simply perfect. Anyone can grow it satisfactorily. Mid-season or later. Ready March 1st. \$1.00 each; \$6.00 per doz.; \$35.00 per 100.

Yellow Fellow. Winner of the \$100.00 high grade Stearns bicycle prize, in a strong competition. It gives a large graceful bloom with ordinary treatment, and can be grown of immense size for exhibition. Bud tinted bronze, maturing rich bright yellow. Iron-clad constitution, mid-season Japanese variety. Ready March 1st.

50 cts. each; \$3.00 per doz.

F. DORNER & SON'S NEW CHRYSANTHEMUMS.

Mrs. C. H. Peirce. A soft deep yellow that appeals to the eye and at once becomes a favorite. Of robust habit, model strength of stem, heavy beautiful cut foliage up to the flower, its even growth, uniform size of flowers that are made up of well developed leatherly petals, giving it the greatest substance. Its proof against burning and its excellent shipping qualities will rank it with the best of commercial varieties. Height 3½ feet. The large full flowers of globular form, with straight petals curved in at the tip, produce an equal to Major Bonnaffon of a deeper yellow and a nearly reverse in style of petal. Take first bud. At its best November 6th to 25th. Recommended for N. C. S. Certificate by committees at Boston, Philadelphia, Cincinnati and Chicago. Ready March 1st.

35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Snow Queen. A first class commercial variety, a large, nicely finished snow white flower of rounded form full to center, slightly curved pointed petals and of great substance, good strong stem with foliage nearly up to the flower, good keeper and shipper. Height 3 to 3½ feet. At its best, October 20th to November 5th. Received N. C. S. Certificate. Ready March 1st.

50 cts. each; \$5.00 per doz.; \$35.00 per 100.

Merry Christmas. The best and latest of all whites. Height 4½ feet. Good stiff stem. A well formed flower of purest white. In style of Mutual Friend, but far greater in substance and full to the center. The latest of all chrysanthemums, being at its best from December 20th to January 1st. Ready March 1st.

35 cts. each; \$3.50 per doz.; \$25.00 per 100.

Caladiums Fancy Leaved.

These handsome variegated varieties are again coming into strong demand. For a few years they seemed to have gone out of favor, but the many new sorts shown during the past two years has created new interest in them. We offer a beautiful collection of 25 distinct varieties in strong sound bulbs at \$2.00 per doz.; \$15.00 per 100.

FANCY LEAVED CALADIUMS.

..Choice New Dahlias.

*The following Collection
Embraces the Finest of
Recent Introductions.*

Beauty Inconstant. A new pompone of perfect form and beautiful yet inconstant color, it sometimes being yellow margined red, at other times white margined yellow, while frequently all three colors combine in one flower, and again the same plant will have all three types at one time. 15 cts. each; \$1.50 per doz.

Clifford W. Bruton. A superb yellow decorative Cactus Dahlia; a strong, sturdy grower and an extremely free bloomer, with flowers 5 to 6 inches across. 30 cts. each; \$3.00 per doz.

Grand Duke Alexis. A unique and grand Dahlia with quilled petals, broad at the base and tapering to a point; color ivory-white with a faint tinge of rose at extremities. 15 cts. each; \$1.50 per doz.

Gilt Edge. A pretty fancy variety similar to Fern-leaved Beauty, but having a golden-yellow edge with creamy white centre; very effective. 15 cts. each; \$1.50 per doz.

Iridescent. A beautiful Cactus variety with a combination of colors that is difficult to describe, the ground color being a clear orange overlaid with red and suffused with pink, giving a soft yet brilliant red effect with a blue reflex. 30 cts. each; \$3.00 per doz.

Miss May Loomis. A grand show variety; shell-like petals of pure white suffused soft rosy-lavender; a most unusual shade. 15 cts. each; \$1.50 per doz.

Snowclad. The finest white pompone Dahlia. 15 cts. each; \$1.50 per doz.

Wm. Agnew. A very large Cactus variety of rich dazzling red, full to the centre, with long twisted petals which occasionally have a clear yellow band running through the centre. 15 cts. each; \$1.50 per doz.

We will furnish one each of the above eight choice new varieties for \$1.25.

Three Grand Dahlias.

American Flag. Ground color snow white, heavily bordered brilliant cherry red, sometimes a central stripe of same color; distinct and pleasing. Not a vigorous grower but a free bloomer and a beautiful flower. 15 cts. each; \$1.25 per dozen.

Fern-Leaved Beauty. A great acquisition and probably the finest of all bedding Dahlias, being a new and distinct type, with fern-like foliage and a dwarf branching habit; color creamy white, with a distinct margin of crimson around each petal. First prize at Philadelphia. 15 cts. each; \$1.25 per doz.

Mrs. Peart. This is the cactus variety that has created so much comment. The flowers are creamy white, shaded soft yellow at base of petals, of peculiar form and medium size; the petals roll backward, the edges overlapping each other, giving them a distinctly unique appearance. A moderate grower. 10 cts. each; \$1.00 per doz.; \$8.00 per 100.

Twelve Choice Show and Fancy Dahlias.

Dandy. Ground color pure pink, striped and penciled black.

Duchess of Cambridge. White suffused pink, tipped and edged carmine.

Frank Smith. Rich dark maroon, tipped pinkish white.

Henry Walton. Yellow ground, edged vermillion.

John Keynes. Clear yellow, tipped bright orange scarlet.

Miss Browning. Purest yellow, tipped white.

Mrs. Dexter. A beautiful shade of salmon.

Nero. Deep crimson maroon, large and full.

Penelope. White, delicately flaked lavender towards the edges.

Pluton. The finest pure yellow.

COREOPSIS LANCEOLATA.

Coreopsis Lanceolata.

A hardy perennial that should find its way into every garden. The flowers are a clear bright golden yellow and certain to attract attention. It flowers profusely, is perfectly hardy and thrives in almost any situation. One of the best of the perennials, and invaluable for summer cut flowers. Strong one year old clumps, \$1.00 per doz. ; \$6.00 per 100. 2½ inch pots, 60 cts. per dozen ; \$4.00 per 100.

Doronicum Excelsum.

One of the best of the very early flowering perennials, with large golden yellow Daisy or Marguerite-like flowers, about four inches across, beginning to flower in April and continuing at intervals during the whole season. It is also useful as a forcing plant, clumps being potted up and brought into the cool greenhouse at any time during the winter, may be had in full bloom in from four to six weeks time, the flowers proving most valuable for cutting.

Strong divided plants, \$1.00 per dozen ; \$8.00 per 100.

Strong clumps, suitable for forcing, \$2.50 per dozen ; \$20.00 per 100.

Ficus Elastica. (Rubber Plant.)

A good lot of four inch pots ready March 1st. Plants 10 to 12 inches high at \$1.50 per dozen ; \$35.00 per 100.

DEUTZIA LEMOINEI.

Deutzia Lemoinei.

Without doubt one of the most important new hardy plants offered in many years. It is a hybrid between *D. gracilis* and *D. parviflora*, and has the advantage over the former of having flowers nearly three times as large, which are produced in broad based cone-shaped heads of from 20 to 30 flowers each, and are of purest white, which open out very full. It is perfectly hardy, and will not only prove a valuable plant for the garden, but is certain to become one of the standard plants for forcing into flower in winter, more especially at Easter, and it is quite sure to take the place of the popular *D. gracilis*. This plant has received the highest awards from the National Horticultural Society of France, and has created quite a sensation wherever shown. Good one year old plants 20 cts. each, \$2.25 per doz.

Dracæna Godseffiana.

Undoubtedly the most striking new plant introduced this year. As shown in the illustration, the plant is of an entirely different habit and appearance from all other *Dracænas*; it is of free-branching habit, and throws out many suckers from the base so as to form beautiful, compact, graceful specimens in a very short time. Its foliage is broadly lanceolate, 5 to 6 inches long, and 2 to 3 inches wide; of a strong leathery texture; rich dark green color, densely marked with irregular dots and spots of a creamy-white, not unlike an *Aucuba Japonica*, of which the markings in the foliage strikingly remind one. The illustration gives but a faint idea of its striking beauty; it is a plant which will undoubtedly be grown very extensively for decorative purposes when it becomes more plentiful, as it is very hardy as a house plant, equaling if not surpassing in this respect the *Aspidistra* and *Ficus*. Strong plants in 4-inch pots, \$3.00 each, \$30.00 per doz.

Dracænas.

Amabilis. A most desirable variety that quickly forms large specimens. 5 inch pots, 50 cts. each; \$6.00 per doz.

Bruanti. A graceful green leaved sort that is not as well known as it deserves to be; a most useful decorative plant that will stand as much abuse as a Rubber. We have a large stock, and offer:

4 inch pots, 10 ins. high, 30 cts. each; \$3.00 per doz.

5 " 18 " 50 " 5.00 "

6 " 24 " 75 " 9.00 "

Congesta Grandis. Similar to Bruanti, but with narrower dark green foliage. 4-inch pots, 35 cts. each; \$3.50 per dozen.

Congesta Discolor. Identical with Grandis, excepting that the foliage has a bronzy tinge. 4 inch pots, 35 cts. each; \$3.50 per dozen.

Fragrans. We have a fine lot of this useful variety:

2½ inch pots, \$1.25 per doz.; \$10.00 per 100.

3 " 1.50 " 12.00 "

4 " 2.50 " 20.00 "

5 " 4.50 " 35.00 "

Indivisa. This useful variety is always scarce. We offer a limited stock of good plants:

2 inch pots, 60 cts. per doz.; \$4.00 per 100.

3 " 75 " 6.00 "

5 " 3.00 " 20.00 "

Lindenii. Good plants in 4 inch pots, 75 cts. each.

Marginata. Fine plants of this fine variety. 3 inch pots, 30 cts. each; \$3.00 per dozen.

Massangeana. Good plants in 4 inch pots, 75 cts. each.

Sanderiana. A new and entirely distinct species, and one of the finest novelties introduced for years. It has thick textured narrow leaves which are closely set on slender upright stems, variegated with silvery white and green bands alternating and of various widths, the whole surface of the plant being covered with a silvery sheen of bloom. It is altogether different from anything heretofore known in the way of *Dracænas*.

Good young plants, 2½ inch pots, 50 cts. each.

Terminalis. 2½ inch pots, ready March 1st, \$1.00 per doz.; \$8.00 per 100.

DRACÆNA GODSEFFIANA.

CIBOTIUM SCHIEDEI.

DAVALLIA STRICTA.

FERNS.—Choice and Scarce Varieties.

Adiantum Farleyense.

Our stock of this magnificent variety is exceptionally large and in fine condition. Having been grown at a comparatively low temperature they will stand transportation nicely.

2 inch pots,	\$1.50	per doz.;	\$10.00	per 100.
3 "	2.50	"	20.00	"
4 "	5.00	"	40.00	"
5 "	9.00	"	75.00	"
6 "	12.00	"	100.00	"

Adiantum Rhodophyllum.

This variety is always scarce, and while it does not compare with Farleyense in a large specimen, in a small plant it resembles it very much, and has the advantage of succeeding under ordinary cultivation.

3 inch pots, fine thrifty plants, \$2.00 per doz.; \$15 per 100.

Adiantum Lathomi.

Another scarce variety, which is rarely offered in quantity. It makes one of the handsomest specimens of any Adiantum known to us. Good young plants, 3 inch pots, \$2.50 per doz.; \$20.00 per 100.

Alsophila Australis.

This useful Tree Fern is always scarce; we have this season an exceptionally fine lot.

2½ inch pots,	\$1.00	per doz.;	\$8.00	per 100.
3 "	1.25	"	10.00	"
5 "	3.00	"	25.00	"

Cibotium Schiedei.

This is undoubtedly the finest of all Tree Ferns for use in decorative purposes, and though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators in all the Eastern cities, succeeding admirably as a house plant, which is not the case with any other Tree Fern. It possesses a grace and delicate appearance that is found in no other plant, the illustration giving but a faint idea of its beauty. It is a variety that is always scarce and difficult to obtain. We have succeeded in growing a fine lot of this variety, and offer beautiful decorative plants of it. 6 inch pots, \$1.50 each; 7 inch pots, \$2.50 each; 8 inch pots, \$3.50 each.

Davallia Fijiensis Plumosus.

One of the prettiest of the Davallias; especially fine for growing into specimen plants; with dark green, gracefully arching fronds.

2½ inch pots, \$1.50 per doz.; \$12.00 per 100.

Doryopteris Nobilis.

A beautiful variegated variety with large bold foliage.

2 inch pots,	\$1.00	per doz.;	\$8.00	per 100.
3 "	1.50	"	10.00	"

Nephrolepis Exaltata Bostoniensis.

We offer a good lot of young 3 inch pot plants, \$1.25 per doz., \$10.00 per 100.

Nephrolepis Davalleoides Furcans.

Strong 4 inch pots, 35 cts. each; \$4.00 per doz.

New Geraniums.

The list noted below embraces the best of this season's introductions. Selected after careful test from the host of European novelties. All will be found entirely distinct and valuable additions to any collection.

Single Sorts.

Atlantis. A vigorous grower, very free in bloom with enormous trusses; florets marbled rose and white together. Fine for massing, as the flowers are carried well above the foliage.

Jacquerie. Enormous florets in very large trusses, magenta, with flame-colored touches at base of petals.

La Vienne. Color indescribably bright and beautiful; bright rosy-scarlet band around each petal, centre of each petal white, marbled and veined with rose; of fine form.

Mme. C. Bajac. Free to the last degree in the production of blooms; color pure rose on the edges with white centre.

N. Menelik. A fine circular flower of a creamy-white, shading to a deep border of bright pink; very bright in appearance.

Phyllis. Pale salmon-rose, one of the most delicately beautiful we have ever seen, flowers very large and round.

20 cts. each. The set of 6 for \$1.00.

Double Sorts.

Col. Barre. One of the Bruant type of sun-proof varieties, and an entirely new color in this type, lower petals being of a rosy-pink, upper petals darker and marked scarlet at the base; a most brilliant color effect.

Edward Danglede. Very large, spherical trusses, almost covering the plant; color bright rosy-heliotrope, an entirely new shade.

M. Ott. Large, round flowers, magenta, tinted violet, upper petals marked with scarlet.

Marquis de la Costa. A beautiful new color, bright rosy-aurora, relieved by tints of orange and darker touches of rose.

20 cents each; set of four for 60 cents.

New Dwarf Bedding Geranium "Mars."

A superb bedding and pot Geranium; of very dwarf, compact habit, the plant itself not exceeding 4 to 5 inches in height, but exceedingly floriferous. The flowers are of a clear light salmon, darker in the centre. \$1.00 per doz.; \$8.00 per 100.

CHOICE
GLOXINIAS**

GLOXINIA. We offer this season the finest Gloxinias, both as regards strain of variety and size of bulbs, that we have ever sent out. All are well matured, they are of the Crassifolia type of foliage, and are all erect flowering. The prices have been reduced to 75 cts. per doz.; \$5.00 per 100; \$40.00 per 1000.

Gaillardia Grandiflora.

One of the finest of hardy Perennials. Flowers large, numerous, produced on long stems, and excellent for cutting; of the most gorgeous coloring. Centre dark-red brown; petals variously marked with rings of scarlet crimson, orange and vermillion. It delights in a rather poor, light soil, and blooms in the greatest profusion from June to November.

Strong one-year-old clumps, \$1.00 per doz.; \$8.00 per 100. 2½ inch pots, that will flower freely this season, 60 cts. per doz.; \$4.00 per 100.

Two New Giant Heliotropes.

The two varieties listed below are what is known as the Bruant type, being characterized by very large individual florets and immense sprays of bloom, which frequently measure 10 to 12 inches across, and are grand additions to this family.

Czar. A vigorous grower, with dark stiff stems carrying enormous trusses of bloom of an intense deep violet with white eye.

Czarina. Strong robust stems and extremely large trusses of extra sized flowers of deep indigo blue with white eye. 20 cts. each; \$2.00 per dozen.

Helenium Grandicephalum Striatum.

A most interestingly old hardy plant that appears to have been lost from cultivation for a long time, has only recently been re-introduced, and is one of our most desirable perennial plants. It is of strong, robust, erect habit, growing from 3 to 4 feet high, with flowers about 1½ inches in diameter, in large branching heads, of a deep orange color, irregularly striped and blotched with crimson, as shown in the cut. A most novel and unique combination and distribution of colors. 25 cts. each; \$2.50 per dozen.

HELENIUM GRANDICEPHALUM STRIATUM.

HELIANTHUS MULTIFLORUS Fl. Pl.

Helianthus. Hardy Sunflowers.

Multiflorus. Large, double yellow Dahlia-like flowers. 75 cts. per dozen; \$6.00 per 100.

Maximilliana. Late flowering single, in long sprays, fine for cutting. 75 cts. per dozen; \$6.00 per 100.

Mollis. Large, single, lemon colored flowers, early in fall. 75 cts. per dozen; \$6.00 per 100.

Rigidus. Small, single, golden yellow with dark centre, flowers early in the season. 60 cts. per dozen; \$5.00 per 100.

Hypericum Moserianum.

We take pleasure in calling attention to this beautiful plant, which has been universally admired and is acknowledged to be one of the very best herbaceous plants of recent introduction. The habit of the plant is free and graceful; it produces long, slender, much-branched stems, leafy to the base and all drooping toward the ends, apparently from the weight of the flowers and buds, although the flowers face so that none of their beauty is lost. It is marvelously free flowering, of large size, measuring from 2 to 2½ inches in diameter, in color a rich golden yellow, which is rendered still more effective by the numerous yellow stamens and crimson anthers, and blooms continuously the entire season. It is perfectly hardy, forming a bush about 3 feet high. Strong one year plants \$1.00 per doz.; \$6.00 per 100.

Hypericum Tricolor.

A pretty variegated form of the above, 30 cts. each; \$3.00 per dozen.

Hardy English Ivies.

An extra fine lot of strong bushy plants in 4 inch pots, 3 feet high, with 3 to 5 shoots. \$1.00 per doz.; \$8 per 100.

New Variegated Ivy. Maderiensis.

Undoubtedly the prettiest of all the variegated Ivies, with large dark green foliage, beautifully blotched and marbled with creamy white. Strong plants in 4 inch pots, 50 cts. each; \$5.00 per dozen.

Lilacs for Forcing.

Fine pot-grown plants, well ripened up and well set with buds, Charles X. and Marie Lagraye, \$6.00 per dozen; \$50.00 per 100.

Hydrangea Paniculata Grandiflora.

We are again this season offering a fine lot of standard or tree-formed Hydrangeas; they are beautiful plants and will sell on sight. Stock limited.

\$3.50 per dozen; \$25.00 per 100.

Also a fine lot of ordinary bush form, strong 2-year-old plants, 24 inches high, \$1.00 per doz.; \$6.00 per 100. 30 inches high, \$1.25 per doz.; \$10.00 per 100.

Iris Kaempferi. Japanese Iris.

The collection of 24 varieties described in our retail catalogue were selected for us by the most responsible house in Japan, and we are assured the collection embraces the cream of the hundreds of varieties cultivated by the Japanese.

While the Iris succeeds in almost any soil and under any conditions, they delight in a rich deep wet position and should be abundantly supplied with manure and water.

15 cts. each; \$1.50 per doz.; \$10.00 per 100.

The set of 24 varieties for \$3.00. Choice Mixed Varieties, \$1.00 per dozen; \$8.00 per 100.

Metrosideros Floribunda. Bottle Brush.

We have a fine lot of both tree and bush shaped plants of this useful plant, in fine shape for forcing for Easter.

Bush shaped plants with 12 inch bushy crowns, \$1 each.

Standards with stems 20 inches high and 12 to 15 inch crowns, \$1.50 each.

Phlox Divaricata Canadensis.

One of our native varieties that is, however, but rarely met with, and which has been introduced into Europe the past few years as a novelty, and a plant that deserves a place in every American Garden as well, being one of the earliest spring flowers; frequently beginning to flower early in April, it continues until about the middle of June, with large bright lilac flowers, which are produced on stems about 10 inches high in large, showy heads, and are very fragrant.

2½ inch pots, \$1.00 per dozen; \$8.00 per 100.

MUSA ENSETE.

Musa Ensete. Abyssinian Banana.

The leaves of this magnificent plant are long, broad and massive, of a beautiful green, with a broad crimson mid-rib; the plant grows luxuriantly from 8 to 12 feet high, producing a tropical effect.

Strong 5 inch pots, 50 cents each; \$5.00 per dozen.

Seven Grand Pelargoniums.

(Lady Washington Geraniums.)

The seven varieties listed below are the finest that have ever come to our notice. The plants are of strong, vigorous growth and very free-flowering, while the size and shape of the flowers are all that could be desired.

Dorothy. An extremely free-flowering variety of a soft rosy salmon, with dark maroon blotches on the upper petals and very richly shaded with plum color around the throat. 2½ inch pots, \$2.00 per doz.; \$15.00 per 100.

Mrs. Bradshaw. A fine large flower; white with dark purple blotches. 2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

Madame Thibaut. White, richly blotched and marked with rose, the upper petals marked with crimson maroon with large white centre; the trusses and individual flowers are of immense size, while the petals are heavily ruffled. 2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

Mrs. Robert Sandiford. A sport of the above variety with which it is identical in every way, except in color, which is of a pure glistening snow-white; a grand acquisition. 2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

Madame Vibert. A grand flower with black maroon blotches bordered fiery red, the flower entirely edged with rose; a vigorous grower, of fine habit, and a free bloomer. 2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

Marquise of Salisbury. A high colored variety with rich dark spots. 2½ inch pots, \$1.50 per doz.; \$10.00 per 100.

Victor. Bright cherry-red with white markings at base of each petal, two upper petals heavily spotted with deep maroon. 2½ in. pots, \$1.50 per doz.; \$10.00 per 100.

Pandanus Veitchii.

Good plants in 6 inch pots, \$1.25 each.

Dreer's Double Petunias.

Our strain of double Petunias is too well known to require special description. We are now offering fine, healthy, strong plants from three inch pots, which are in the most vigorous condition, free from rust and disease, and which will furnish a large number of cuttings in a short time. The set is composed of fifteen of the finest double fringed varieties of such colors as are especially suited for the retail trade. Strong 3 inch pots. \$1.00 per doz.; \$8.00 per 100. The set of fifteen varieties for \$1.25.

DREER'S SUPERB DOUBLE FRINGED PETUNIAS.

PALMS Our Leading Specialty.

We again call special attention to our stock of Palms, which is the largest and most complete in the country, especially in the varieties and sizes used in the general Florists' trade. Our stock of Kentias alone occupying over one and a half acres of glass, and all other popular varieties being on hand in proportionate quantities.

Japanese Tree Pæonies.

We are offering a collection of 18 very fine varieties of these beautiful plants. The selection has been made for us by one of the principal growers in Japan, and we are assured that it contains only the best sorts. The plants we offer are strong two-year old, imported from Japan. 50 cts. each, \$5.00 per. doz.; \$40.00 per 100.

Double Rudbeckia, “Golden Glow.”

A glorious new plant, and one that will find a place in every garden here and abroad; of fine habit, vigorous growth, with early, continuous and immense blooming qualities; it will be found excellent also for cut-flower purposes, inasmuch as the stems are long and often carry a dozen flowers furnished with most beautiful foliage. A large vase filled with these flowers is a beautiful sight.

Strong plants 60 cts. per doz.; \$5.00 per 100.

Hardy Garden Pinks.

Souvenir de Sale. An entirely new shade in hardy Pinks, being a delicate soft rosy pink with exceptionally large flowers, which are beautifully formed, very double and exceedingly useful for cutting and one of the freest flowering yet raised. A grand acquisition and a fine companion to that most useful white variety "Her Majesty." It was awarded a first class certificate by the National Pink Society in London.

2 inch pots, 60 cts. per doz.; \$4.00 per 100.

Her Majesty. This variety is a grand improvement on the popular variety known as "Snow" or "Mrs. Sinkins," to which it is superior in size of flower and freedom of bloom. The flowers, which are of large size, similar to a Carnation, and of the purest white color and very fragrant, are borne on stout, erect stems, 12 inches long. It is perfectly hardy, and will winter in the open border without protection; or may be grown in cold frames for early forcing.

Very strong one year old clumps, \$1.00 per doz.; \$6.00 per 100.

Scotch Pinks.

Juliette. White, laced crimson.

Laura Wilmer. White, purplish maroon centre.

Prince Arthur. Crimson centre, bluish lacing.

Snow (Mrs. Sinkins). Large pure white, very fragrant.

Clumps one year old, \$1.00 per doz.; \$6.00 per 100.

Crimson Spirea, Anthony Waterer.

A valuable and remarkable new shrub. This is one of those exceptional novelties that occur only at rare intervals, adding richness and beauty to our garden-flora. It outshines all Spireas in brilliancy of color, being of a bright crimson, of dwarfer and denser growth, and a profuse and continuous bloomer, being in bloom during the entire summer and fall. It makes an admirable pot plant as well, and will no doubt become a standard plant for Easter decoration.

Strong one-year old plants, \$1.00 per doz.; \$8.00 per 100.

Single Violets.

The varieties offered below are fully as desirable as the finest doubles, and for freedom of bloom they excel anything heretofore offered.

Admiral Avellan. A French variety with distinct bright reddish flowers, produced very freely; of large size and fragrance.

California. Flowers are very large, borne on long stout stems, which makes it especially valuable as a cut-flower; intensely fragrant and of a clear violet-purple color that does not fade out.

Luxonne. Of the same size as the California, but appears nearly double its size, as the petals all open out flat, and has the advantage of flowering continuously from early in September until April. It is of a beautiful rich but soft violet-purple color, with strong stout stems and very fragrant. (See cut.)

Princess of Wales. Another grand variety, not quite as large as *Luxonne* and a shade lighter in color, intensely fragrant.

2½ inch pots (Ready March 1st,) 60 cts. per doz.; \$4.00 per 100.

New Iron Age Hand Plow.

A featherweight tool of wonderful power. The large wheel makes the turning of a furrow a pleasure. \$2.50.

New Iron Age Single Wheel Hoe.

Simple, strong and very light in weight; a pleasure to use it, so little labor. \$4.50.

The "PLANET JR." No. 5 Hill Dropping Seeder.

The new No. 5 "Planet Jr." drops at 5, 6, 8, 10, 12, 16, 24 and 48 inches apart, and also in a continuous row. Index with brass screw regulator and cut-off is at the top of the handle.

It is very light running. Its large capacity will suit all large growers, and yet it works so perfectly that it will sow a single paper of seed or drop it in hills accurately, to the very last grain.

Price, \$12.00.

The "Model" Drill.

The Index or Indicator is plain, convenient and reliable. It is placed in open sight, and can be quickly adjusted to the slightest variation. The flow of seed can be instantly stopped by a swinging cut-off. The marker is simple. The main wheel is large and of sufficient width to prevent its sinking into soft earth. \$6.00.

The "Planet Jr." Double Wheel Hoe,

No. 11.

This tool is brand new for 1898. Wheels are 11 inches diameter, and can be set at four different distances; the frame can be set at three different heights. With all parts as shown above, complete, \$8.00. Without rakes, small hoes and leaf lifters, \$6.00. With one pair 6 inch hoes only, \$4.00.

MASTICA.

For glazing green-houses, new or old. Elastic, adhesive, easy to apply. Every florist has experienced difficulty in getting putty that is satisfactory for any length of time. The fact is, putty is not adapted to stand the severe and varied tests to which it is subjected on a green-house. Mastica being elastic, is not affected by the expansion and contraction, and retains this property for years.

One gallon will cover about 300 running feet (one side).

1 gallon \$1.00.

Mastica Glazing Machines (see cut) \$1.00 each.

Dreer's Iron Plant Stands.

These plant stands are made of cast iron in five sizes, and can be furnished in three styles: plain black, galvanized, and bronzed. They will be found very useful for elevating plants in the back rows of greenhouses, conservatories, etc. 10 per cent. discount on 5 stands and over.
